SUMMARY

Operations Coordinator with 4+ years in freight and logistics operations. Track carrier performance and on-time delivery in Excel and write simple SQL queries against a shipment database.

SKILLS

Excel (pivot tables, Power Query), SQL (basic), reporting on late deliveries, carrier performance tracking

EXPERIENCE

Operations Coordinator | **Regional freight and logistics company (about 300 employees)** | Jun 2022 - Present

- Traced one carrier's late loads out of the Dayton terminal to its Friday pickups using six months of data in Excel, and presented the finding to the operations manager and the terminal manager.
- Raised on-time delivery at that terminal from 81 percent to 93 percent over about three months, as part of the team that moved those Friday loads to a different carrier.
- Built the weekly report on late deliveries for the operations manager with pivot tables and Power Query, which reduced report preparation time from half a day to about 40 minutes.
- Track about 400 shipments a day across 12 carriers.
- Write simple SQL queries against the shipment database a few times a week.
- Work with carriers and customers to resolve shipment issues.
- Trained four new coordinators.

Customer Service Representative | **National grocery delivery service** | Aug 2020 - May 2022

- Kept a spreadsheet of the top causes of late or missing orders that the supervisor used in weekly meetings.
- Answered about 60 calls and emails a day about late or missing orders.

Shift Lead | **Fast-casual restaurant chain** | 2018 - 2020

- Supervised staff and handled cash.

EDUCATION

BA Business Administration, large public state university, 2020
