SUMMARY

Operations Coordinator with over 4 years in freight logistics operations, tracking shipments across 12 carriers and sending the operations manager a Monday report on late deliveries. Builds reports in Excel with pivot tables and Power Query and writes simple SQL queries against the shipment database.

SKILLS

Excel (pivot tables, Power Query), SQL (simple queries), shipment tracking, reporting on late deliveries

EXPERIENCE

Operations Coordinator | **Regional freight and logistics company (about 300 employees)** | Jun 2022 - Present

- Track about 400 shipments a day across 12 carriers and work with carriers and customers to resolve issues.
- Helped raise Dayton terminal on-time delivery from 81 to 93 percent over about three months, after the team moved one carrier's Friday pickups to another carrier.
- Showed in six months of Excel data that the carrier, late on almost a third of its Dayton loads, was late on its Friday pickups, and presented the finding to the operations manager and the terminal manager.
- Cut the Monday report on late deliveries for the operations manager from half a day's work to about 40 minutes by building it with Excel pivot tables and Power Query.
- Write simple SQL queries against the shipment database a few times a week.
- Trained four new coordinators.

Customer Service Representative | **National grocery delivery service** | Aug 2020 - May 2022

- Answered about 60 calls and emails a day about late or missing orders and kept a spreadsheet of the most common causes, which the supervisor started using in the weekly meeting.

Shift Lead | **Fast-casual restaurant chain** | 2018 - 2020

- Supervised staff and handled cash.

EDUCATION

BA Business Administration, large public state university, 2020
